

THIN CAST™

Thincast™ Battery Pack User Manual

WARNING (12V-4A)

This battery pack is **ONLY** compatible with Capstone's Thin Cast Smart Mirror. **DO NOT** connect any other electronics to the Battery Pack (i.e., Smartphones, Tablets, etc.) as this could permanently damage the device.

Charging the Battery Pack

- **NOTE:** Only use the 12V-4A USB-C Power Adapter that came with your Smart Mirror to charge the Battery Pack.
- Connect to wall outlet and USB-C port to begin charging (see **Figure A**).
- The battery pack takes approximately 3 hours to fully charge.

Figure A

Mounting the Battery Pack

- **Power off and unplug the Smart Mirror before mounting the Battery Pack.**

Wardrobe/Fitness:

1. Remove the protective paper on one side of the Mounting Pad and apply to the back of the Battery Pack. Use caution as the adhesive is very strong (see **Figure B**).
2. Position Battery Pack behind the Smart Mirror on the Top-Left side and connect the USB-A to USB-C cable (see **Figure C**).
3. Remove the second protective paper on the Mounting Pad and apply slight pressure to set onto the Smart Mirror. Once applied, the Battery Pack is mounted.

Standard:

1. Remove the protective paper on one side of the Mounting Pad and apply to the back of the Battery Pack. Use caution as the adhesive is very strong. (see **Figure B**)
2. Position Battery Pack behind the Smart Mirror on the Bottom-Right side and connect the USB-A to USB-C cable (see **Figure D**).
3. Remove the second protective paper on the Mounting Pad and apply slight pressure to set onto the Smart Mirror. Once applied, the Battery Pack is mounted.

Mounting Pad can be separated.

Ensure the 2 pieces are placed together before adhering to the Battery Pack & Smart Mirror.

Battery Pack Use

- Tap the Battery Pack's power button to turn on and show the battery charge. You can now power on the Smart Mirror as you normally would without the need of a wall outlet.
- You may recharge the battery while it is still connected to the Smart Mirror. It is not necessary to detach the Battery Pack from the Smart Mirror each time.
- Avoid letting the battery completely die while running the Smart Mirror. Fully power off (shutdown) the Smart Mirror if you need to disconnect the battery pack.
- To remove battery pack from the mirror, gently twist and pull the Battery Pack to release and separate the Mounting Pad.
- Based upon type of use, the Battery Pack will supply up to 5 hours of runtime to the Smart Mirror. To extend the runtime, fully power off (shutdown) the Smart Mirror. After a few moments, the Battery Pack will automatically shut off.

The LED lights on the battery pack illuminate and blink to show battery charged status:

● ○ ○ ○	5% - 25%
● ● ○ ○	27% - 50%
● ● ● ○	50% - 75%
● ● ● ●	FULL CHARGE LED indicators all turn on when fully charged

WARNING (12V-4A)

This battery pack is **ONLY** compatible with Capstone's Thin Cast Smart Mirror. **DO NOT** connect any other electronics to the Battery Pack (i.e., Smartphones, Tablets, etc.) as this could permanently damage the device.

Federal Communications Commission Statement

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the

instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the distance between the equipment and receiver. - Connect the equipment to an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help. This equipment complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- 1) This device may not cause harmful interference.
- 2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Thank you for purchasing the Thincast™ Power Pack. This User's Manual contains information that will help to operate the device as well as answering questions about certain features. Please keep this manual in a safe place for future reference.
